1. (S/NF) This forwards the status of the documents in table format (Enclosure 1). As of COB, 6 January, there were 4,824 document folders indexed of which 3,524 are in the ORCON-IRISA File.
2. (S/NF) The 2,750 plus documents expected from JSI-4B and the 350 plus from Fort Bragg have not yet been received at DIA, even though they were expected on 4 January. We do not know when they will arrive.
3. (S/NF) Based on the expected documents, we do not think that the formal DB exploitation will be completed until mid-March 1984. Thus, the information will not be completely computerized for retrieval until after mid-March.
